Summary

I'm a former financial analyst with 4 years of experience, passionate about code developing & creating highly polished user experience. I have high learning abilities, high personal standards, attention to details, & hunger for expanding my horizons. A team player with good interpersonal skills with both peers & superiors.

Experience

04/2021 – Today: Freelance at **Coda Project & Stance**

- **LatetPe App**: Developing a play app that helps parents & children to create better communication in order to increase the child's protection.
    - Developed UI components that are highly UX driven.
    - Managed application's state in the client side.
    - Developed server side using Express with code optimizations for high response.
    - Created schemas using GraphQL & handled HTTP requests end-to-end.
    - Integrated with Firebase.

    Technologies: ReactJS, Node.JS, GraphQL, TypeScript, Firebase.

- **Stance App**: Developing the server side of a news app.
    - Used Mongoose schema models for communication between the client & the server.
    - Defined & developed HTTP APIs in the server side using Express that implements CRUD methods for the Mongoose schema models.

    Techonlogies: Node.js, MongoDB.

2016 – 2021: **MNS Consulting**

- Composed complex financial models to support decision-making process for public-private partnership projects (PPP/PFI/BOT);
- Prepared expert economic opinions, equity valuations, & other financial valuations.
- Produced financial modelling to estimate overhead & costs of logistics project for Ministry of Defence (~$4B); recommendations were accepted by client & implemented.

Education

2020-2021: **John Bryce - Full Stack Web Developer** – GPA 94

- Learned & practiced the following web programming languages & technologies: JavaScript, TypeScript, React, Redux, Angular, Node.JS, GraphQL ,HTML5, CSS , MongoDB, Bootstrap, MaterialUI ,MySQL, PHP , jQuery, Express.

2014 – 2016: **Ben Gurion University, M.A. in Economics** – GPA 94.5.

2011 – 2013: **Ben Gurion University, B.A. in Economics** – GPA 92 (Graduated with honors).
